INDEX TO VOLUME V

Acree, S. F., Brightman, Charles L., and Meacham, M. R. A spectrophotometric study of the "salt effects" of phosphates upon the color of phenolsulfonphthalein salts and some biological applications..... 169
——, Meacham, M. R., and Hopfield, J. H. A method of determining the relative toxicity of sodium, potassium, lithium, and other ions toward *Endothia parasitica:* Data on sodium chloride..... 309
——, ——, ——. Preliminary note on the use of some mixed buffer materials for regulating the hydrogen ion concentrations of culture media and of standard buffer solutions..... 491
——, ——, ——. The relative effect of phosphate-acetate and of phosphate-phthalate buffer mixtures upon the growth of *Endothia parasitica* on malt extract and corn meal media..... 305
Actinomycetaceae, The nomenclature of the. (Addenda)..... 489
Actinomycetes, Studies in the metabolism of. III. Nitrogen metabolism.. 1
——, Studies in the metabolism of. IV. Changes in reaction as a result of the growth of actinomycetes upon culture media..... 31
Agar, Milk-powder, for the determination of bacteria in milk..... 565
—— slants, The use of, in detecting fermentation..... 433
Agar, washed, The use of, in culture media..... 589
Anthrax, The diagnosis of, from putrefying animal tissues..... 343
Apparatus, Description of an, for obtaining samples of water at different depths for bacteriological analysis..... 103
Arthritis, Bacteriologic studies in chronic, and chorea..... 511
Atkins, Kenneth N. Report of Committee on Descriptive Chart. Part III. A modification of the Gram stain..... 321
Atkins, K. N., Conn, H. J., Chairman, Harding, H. A., Kligler, I. J., Frost, W. D., and Prucha, M. J. Report of the Committee on the Descriptive Chart for 1919..... 127
—— —— ——, Report of Committee on Descriptive Chart. Part II. Report of progress, during 1919..... 315
Ayers, S. Henry, and Mudge, Courtland S. Milk-powder agar for the determination of bacteria in milk..... 565
——, ——, and Rupp, Philip. The use of washed agar in culture media.... 589
—— and Rupp, Philip. Extracts of pure dry yeast for culture media..... 89
Aztobacter, Further studies on the growth cycle of..... 325

Bacillus botulinus, The influence of various chemical and physical agencies upon, and its spores. I. Resistance to salt..... 553
Bacillus, On the, of Morgan No. I—A meta-colon-bacillus..... 67
Bact. abortivo-equinus, A study of the action of eight strains of, on certain of the carbohydrates..... 469

Bacteria, The families and genera of the. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191
Bacteria, The production of hydrogen sulphide by..... 231
Bacterial decomposition of salmon..... 353
—— groups in decomposing salmon..... 543
—— Inhibition. I. Germicidal action in milk..... 527
Bactericidal action of CR indicator, The study of. On methods of isolation and identification of the members of the colon-typhoid group of bacteria..... 79
Bacteriologic peptone in relation to the production of diphtheria toxin and antitoxin..... 477
—— studies in chronic arthritis and chorea..... 511
Bacteriological apparatus, Time saving..... 559
——, Some, aspects of dehydration..... 109
Bates, Paul M., and Fairhall, Lawrence T. The sterilization of oils by means of ultra violet rays..... 49
Billings, W. A., and Fitch, C. P. A study of the action of eight strains of *Bact. abortivo-equinus* on certain of the carbohydrates..... 469
Biology, The, of *Clostridium Welchii*..... 375
Bouillon cubes as a substitute for beef extract or meat in nutrient media... 189
Breed, R. S., and Conn, H. J. The nomenclature of the actinomycetaceae (Addenda)..... 489
Brightman, Charles L., Meacham, M. R., and Acree, S. F. A spectrophotometric study of the "salt effects" of phosphates upon the color of phenolsulfonphthalein salts and some biological applications..... 169
Broadhurst, Jean, Winslow, C.-E. A., Chairman, Buchanan, R. E., Krumwiede, Charles, Jr., Rogers, L. A., and Smith, G. H. The families and genera of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191
Bronfenbrenner, J., Schlesinger, M. J., and Soletsky, D. On methods of isolation and identification of the members of the colon-typhoid group of bacteria. The study of bactericidal action of CR indicator..... 79
Buchanan, R. E., Winslow, C.-E. A., Chairman, Broadhurst, Jean, Krumwiede, Charles, Jr., Rogers, L. A., and Smith, G. H. The families and genera of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191
Buffer materials, Preliminary note on the use of some mixed, for regulating the hydrogen ion concentrations of culture media and of standard buffer solutions..... 491
—— mixtures, The relative effect of phosphate-acetate and of phosphate-phthalate, upon the growth of *Endothia parasitica* on malt extract and corn meal media..... 305
—— solutions, standard, Preliminary note on the use of some mixed buffer materials for regulating the hydrogen ion concentration of culture media and of..... 491

Bunyea, Hubert, and Gochenour, W. S. The filtration of colloidal substances through bacteria-retaining filters.... 363
Burget, G. E. Note on the flora of the stomach.... 299

Carbohydrate media, The fate of bacteria of the colon-typhoid group on... 437
Carohydrates, A study of the action of eight strains of *Bact. abortivo-equinus* on certain of the.... 469
Chambers, William H. Bacterial inhibition. I. Germicidal action in milk. 527
Characterization and Classification of Bacterial Types, Final report of the Committee of the Society of American Bacteriologists on, The families and genera of the bacteria.... 191
Chen, Chen Chong, and Rettger, Leo F. A correlation study of the colon-aerogenes group of bacteria, with special reference to the organisms occurring in the soil.... 253
Chorea, Bacteriologic studies in chronic arthritis and.... 511
Clark, Guy W. A modified procedure for the preparation of testicular infusion agar.... 99
Classification of the white and orange staphylococci, Notes on.... 145
Clostridium Welchii, The biology of.... 375
Colloidal substances, The filtration of, through bacteria-retaining filters... 363
Colon-aerogenes group of bacteria, A correlation study of the, with special reference to the organisms occurring in the soil.... 253
——-typhoid group of bacteria, On methods of isolation and identification of the members of. The study of bactericidal action of CR indicator.. 79
Colon-typhoid group, the fate of bacteria of the, on carbohydrate media... 437
"Color standards" for the colorimetric measurement of H-ion concentration pH 1.2 to pH 9.8.... 441
Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types. The families and genera of the bacteria.... 191
——, Report of the, on the Descriptive Chart for 1919.... 127
——, Report of, on Descriptive Chart. Part II. Report of progress during 1919.... 315
——, Report of, on Descriptive Chart. Part III. A modification of the Gram stain.... 321
Conn, H. J., and Breed, R. S. The nomenclature of the actinomycetaceae (Addenda).... 489
——, Chairman, Harding, H. A., Kligler, I. J., Frost, W. D., Prucha, M. J., and Atkins, K. N. Report of the Committee on the Descriptive Chart for 1919.... 127
——, ——, ——, ——. Report of Committee on Descriptive Chart. Part II. Report of progress during 1919.... 315
Conn, H. J., and Hucker, G. J. The use of agar slants in detecting fermentation.... 433
Correlation, A, study of the colon-aerogenes group of bacteria with special reference to the organisms occurring in the soil.... 253
CR indicator, The study of bactericidal action of. On methods of isolation and identification of the members of the colon-typhoid group of bacteria. 79

Culture media, Extracts of pure dry yeast for..... 89
Culture media, Preliminary note on the use of some mixed buffer materials for regulating the hydrogen ion concentrations of, and of standard buffer solutions..... 491
—— ——, The use of washed agar in..... 589

Davis, Lewis. Bacteriologic peptone in relation to the production of diphtheria toxin and antitoxin..... 477
Dehydration. Some bacteriological aspects of..... 109
Description of an apparatus for obtaining samples of water at different depths for bacteriological analysis..... 103
Descriptive Chart for 1919, Report of the Committee on..... 127
—— ——, Report of Committee on. Part II. Report of progress during 1919..... 315
—— ——, Report of Committee on. Part III. A modification of the Gram stain..... 321
Diagnosis, The, of anthrax from putrefying animal tissues..... 343
Diphtheria toxin and antitoxin, bacteriologic peptone in relation to the production of..... 477
Donk, P. J. A highly resistant thermophilic organism..... 373

Eberson, Frederick. A note on the viability of meningococci on yeast agar medium..... 431
Eide, Odd Kinck, and Thjøtta, Th. A mutating, mucoid paratyphoid-bacillus isolated from the urine of a carrier..... 501
Endothia parasitica, A method of determining the relative toxicity of sodium, potassium, lithium, and other ions toward: Data on sodium chloride..... 309
—— ——, The relative effect of phosphate-acetate and of phosphate-phthalate buffer mixtures upon the growth of, on malt extract and corn meal media..... 305
Esty, J. Russell. The biology of *Clostridium Welchii*..... 375
Extracts of pure dry yeast for culture media..... 89

Fairhall, Lawrence T., and Bates, Paul M. The sterilization of oils by means of ultraviolet rays..... 49
Families, The, and genera of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191
Fate, The, of bacteria of the colon-typhoid group on carbohydrate media.. 437
Fermentation, The use of agar slants in detecting..... 433
Filtration, The, of colloidal substances through bacteria-retaining filters.. 363
Fitch, C. P., and Billings, W. A. A study of the action of eight strains of *Bact. abortivo-equinus* on certain of the carbohydrates..... 469
Flagella stain, A modification of Loeffler's..... 181
Flora, of the stomach, Note on..... 299

Frost, W. D., Conn, H. J., Chairman, Harding, H. A., Kligler, I. J., Prucha, M. J., and Atkins, K. N. Report of the Committee on the Descriptive Chart for 1919 127
——, ——, ——. Report of Committee on Descriptive Chart. Part II. Report of progress during 1919 315
Further studies on the growth cycle of azotobacter 325
Fusiform bacilli, Notes on the, of Vincent's angina 365

Genera, The families and, of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types 191
Germicidal action in milk. Bacterial inhibition. I 527
Gifford, S. R. Notes on the fusiform bacilli of Vincent's angina 365
Gochenour, W. S., and Bunyea, Hubert. The filtration of colloidal substances through bacteria-retaining filters 363
Gram stain, A modification of. Report of Committee on Descriptive Chart. Part III 321
Growth cycle of azotobacter, Further studies on the 325

Hagan, W. A. The diagnosis of anthrax from putrefying animal tissues 343
Harding, H. A., Conn, H. J., Chairman, Kligler, I. J., Frost, W. D., Prucha, M. J., and Atkins, K. N. Report of the Committee on the Descriptive Chart for 1919 127
——, ——, ——. Report of Committee on Descriptive Chart. Part II. Report of progress during 1919 315
H-Ion concentration, "Color Standards" for the colorimetric measurement of, pH 1.2 to pH 9.8 441
Highly, A, resistant thermophilic organism 373
Hopfield, J. H., Meacham, M. R., and Acree, S. F. A method of determining the relative toxicity of sodium, potassium, lithium, and other ions toward *Endothia parasitica:* Data on sodium chloride 309
——, ——, ——. Preliminary note on the use of some mixed buffer materials for regulating the hydrogen ion concentrations of culture media and of standard buffer solutions 491
——, ——, ——. The relative effect of phosphate-acetate and of phosphate-phthalate buffer mixtures upon the growth of *Endothia parasitica* on malt extract and corn meal media 305
Hucker, G. J., and Conn, H. J. The use of agar slants in detecting fermentation 433
Hunter, Albert C. Bacterial decomposition of salmon 353
——. Bacterial groups in decomposing salmon 543
Hydrogen ion concentrations, Preliminary note on the use of some mixed buffer materials for regulating the, of culture media and of standard buffer solutions 491
—— sulphide, The production of, by bacteria 231

Influence, The, of various chemical and physical agencies upon *Bacillus botulinus* and its spores. I. Resistance to salt 553

Inhibition, Bacterial. I. Germicidal action in milk..... 527
Ishii, O. The fate of bacteria of the colon-typhoid group on carbohydrate media..... 437

Joffe, Jacob S., and Waksman, Selman A. Studies in the metabolism of actinomycetes..... 31
Jones, Dan H. Further studies on the growth cycle of azotobacter..... 325

Kligler, I. J., Conn, H. J., Chairman, Harding, H. A., Frost, W. D., Prucha, M. J., and Atkins, K. N. Report of the Committee on the Descriptive Chart for 1919..... 127
——, ——, ——. Report of Committee on Descriptive Chart. Part II. Report of progress during 1919..... 315
Krumwiede, Charles, Jr., Winslow, C.-E. A., Chairman, Broadhurst, Jean, Buchanan, R. E., Rogers, L. A., and Smith, G. H. The families and genera of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191

Loeffler's flagella stain, A modification of..... 181

Meacham, M. R., Brightman, Charles L., and Acree, S. F. A spectrophotometric study of the "salt effects" of phosphates upon the color of phenolsulfonphthalein salts and some biological applications..... 169
——, Hopfield, J. H., and Acree, S. F. A method of determining the relative toxicity of sodium, potassium, lithium, and other ions toward *Endothia parasitica:* Data on sodium chloride..... 309
——, ——, ——. Preliminary note on the use of some mixed buffer materials for regulating the hydrogen ion concentrations of culture media and of standard buffer solutions..... 491
——, ——, ——. The relative effect of phosphate-acetate and of phosphate-phthalate buffer mixtures upon the growth of *Endothia parasitica* on malt extract and corn meal media..... 305
Medalia, Leon S. "Color standards" for the colorimetric measurement of H-ion concentration of pH 1.2 to pH 9.8..... 441
Meta-colon-bacillus, A. On the bacillus of Morgan No. 1..... 67
Metabolism, Studies in the, of Actinomycetes. III. Nitrogen metabolism. 1
——, ——, ——. IV. Changes in reaction as a result of the growth of actinomycetes upon culture media..... 31
Method A., of determining the relative toxicity of sodium, potassium, lithium, and other ions toward *Endothia parasitica:* Data on sodium chloride 309
Milk, 1. Germicidal action in. Bacterial inhibition..... 527
——-powder agar for the determination of bacteria in milk..... 565
——, Milk-powder agar for the determination of bacteria in..... 565
Modification, A, of Loeffler's flagella stain..... 181
Modified, A, procedure for the preparation of testicular infusion agar..... 99
Morgan No. 1. On the bacillus of,—a meta-colon-bacillus..... 67

Mudge, Courtland S., and Ayers, S. Henry. Milk-powder agar for the determination of bacteria in milk..... 565
——, Ayers, S. Henry, and Rupp, Philip. The use of washed agar in culture media..... 589
Mutating, A, mucoid paratyphoid bacillus isolated from the urine of a carrier..... 501
Myers, John T. The production of hydrogen sulphide by bacteria..... 231

Nitrogen metabolism. Studies in the metabolism of actinomycetes. III... 1
Nomenclature, The, of the actinomycetaceae (Addenda)..... 489
Normington, Ruth, and Wyant, Zae Northrup. The influence of various chemical and physical agencies upon *Bacillus botulinus* and its spores. I. Resistance to salt..... 553
Note, A, on the viability of meningococci on yeast agar medium..... 431
Note on the flora of the stomach..... 299
Notes on the classification of the white and orange staphylococci..... 145
Notes on the fusiform bacilli of Vincent's angina..... 365
Nutrient media, Bouillon cubes as a substitute for beef extract or meat in.. 189

Oils, The sterilization of, by means of ultra violet rays..... 49
On methods of isolation and identification of the members of the colon-typhoid group of bacteria. The study of bactericidal action of CR indicator..... 79
On the bacillus of Morgan No. 1—a meta-colon-bacillus..... 67

Paratyphoidbacillus, A mutating, mucoid, isolated from the urine of a carrier..... 501
Parsons, Elizabeth, I., Winslow, C.-E. A., and Rothberg, William. Notes on the classification of the white and orange staphylococci..... 145
Peptone, Bacteriologic, in relation to the production of diphtheria toxin and antitoxin..... 477
Phenolsulfonphthalein salts, A spectrophotometric study of the "salt effects" of phosphates upon the color of, and some biological applications 169
Phosphate-acetate, The relative effect of, and of phosphate-phthalate buffer mixtures upon the growth of *Endothia parasitica* on malt extract and corn meal media..... 305
Phosphates, A spectrophotometric study of the "salt effects" of, upon the color of phenolsulfonphthalein salts and some biological applications.. 169
Preliminary note on the use of some mixed buffer materials for regulating the hydrogen ion concentrations of culture media and of standard buffer solutions..... 491
Prescott, Samuel C. Some bacteriological aspects of dehydration..... 109
Production, The, of hydrogen sulphide by bacteria..... 231
Prucha, M. J., Conn, H. J., Chairman, Harding, H. A., Kligler, I. J., Frost, W. D., and Atkins, K. N. Report of the Committee on the Descriptive Chart for 1919..... 127
——, ——, ——. Report of Committee on Descriptive Chart. Part II. Report of progress during 1919..... 315
——, and Tanner, F. W. Time saving bacteriological apparatus..... 559

Reaction, Changes in, as a result of the growth of actinomycetes upon culture media. Studies in the metabolism of actinomycetes. IV..... 31
Relative, The, effect of phosphate-acetate and of phosphate-phthalate buffer mixtures upon the growth of *Endothia parasitica* on malt extract and corn meal media..... 305
Report of the Committee on the Descriptive Chart for 1919..... 127
—— of Committee on Descriptive Chart. Part II. Report of progress during 1919..... 315
—— —— ——. Part III. A modification of the Gram stain..... 321
——, final, of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types. The families and genera of the bacteria..... 191
Resistance to salt. The influence of various chemical and physical agencies upon *Bacillus botulinus* and its spores..... 553
Rettger, Leo F., and Chen, Chen Chong. A correlation study of the colon-aerogenes group of bacteria, with special reference to the organisms occurring in the soil..... 253
Richards, J. H. Bacteriologic studies in chronic arthritis and chorea..... 511
Rogers, L. A., Winslow, C.-E. A., Chairman, Broadhurst, Jean, Buchanan, R. E., Krumwiede, Charles, Jr., and Smith G. H. The families and genera of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191
Rothberg, William, Winslow, C.-E. A., and Parsons, Elizabeth I. Notes on the classification of the white and orange staphylococci..... 145
Rupp, Philip, and Ayers, S. Henry. Extracts of pure dry yeast for culture media..... 89
Rupp, Philip, Ayers, S. Henry, and Mudge, Courtland S. The use of washed agar in culture media..... 589

Salmon, Bacterial groups in decomposing..... 543
——, Bacterial decomposition of..... 353
"Salt effects," the, of phosphates, A spectrophotometric study of, upon the color of phenolsulfonphthalein salts and some biological applications. 169
Salt, Resistance to. The influence of various chemical and physical agencies upon *Bacillus botulinus* and its spores..... 553
Schlesinger, M. J., Bronfenbrenner, J., and Soletsky, D. On methods of isolation and identification of the members of the colon-typhoid group of bacteria. The study of bactericidal action of CR indicator..... 79
Shunk, Ivan V. A modification of Loeffler's flagella stain..... 181
Smith, G. H., Winslow, C.-E. A., Chairman, Broadhurst, Jean, Buchanan, R. E., Krumwiede, Charles Jr., and Rogers, L. A. The families and genera of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191
Sodium chloride, Data on. A method of determining the relative toxicity of sodium, potassium, lithium, and other ions toward *Endothia parasitica*. 309
Soil, A correlation study of the colon-aerogenes group of bacteria with special reference to the organisms occurring in the..... 253

Soletsky, D., Bronfenbrenner, J., and Schlesinger, M. J. On methods of isolation and identification of the members of the colon-typhoid group of bacteria. The study of bactericidal action of CR indicator..... 79
Some bacteriological aspects of dehydration..... 109
Spectrophotometric, A, study of the "salt effects" of phosphates upon the color of phenolsulfonphthalein salts and some biological applications... 169
Staphylococci, Notes on the classification of the white and orange..... 145
Sterilization, The, of oils by means of ultra violet rays..... 49
Stomach, Note on the flora of the..... 299
Studies in the metabolism of actinomycetes. III. Nitrogen metabolism.. 1
——. IV. Changes in reaction as a result of the growth of actinomycetes upon culture media..... 31
Study, A, of the action of eight strains of *Bact. abortivo-equinus* on certain of the carbohydrates..... 469

Tanner, F. W., and Prucha, M. J. Time saving bacteriological apparatus.. 559
Testicular infusion agar, A modified procedure for the preparation of..... 99
Thermophilic organism, a highly resistant..... 373
Thjøtta, Th. On the bacillus of Morgan No. 1—a meta-colon-bacillus..... 67
Thjøtta, Th., and Eide, Odd Kinck. A mutating, mucoid paratyphoid-bacillus isolated from the urine of a carrier..... 501
Time saving bacteriological apparatus..... 559
Toxicity, A method of determining the relative, of sodium, potassium, lithium, and other ions toward *Endothia parasitica:* Data on sodium chloride..... 309

Ultra violet rays, The sterilization of oils by means of..... 49
Use, The, of agar slants in detecting fermentation..... 433
Use, The, of washed agar in culture media..... 589
Viability, A note on the, of meningococci on yeast agar medium..... 431
Vincent's angina, Notes on the fusiform bacilli of..... 365

Waksman, Selman A. Studies in the metabolism of actinomycetes. III. Nitrogen metabolism..... 1
——, and Joffe, Jacob S. Studies in the metabolism of actinomycetes..... 31
Washed agar, The use of, in culture media..... 589
Water, Description of an apparatus for obtaining samples of, at different depths for bacteriological analysis..... 103
Wilson, Frank C. Description of an apparatus for obtaining samples of water at different depths for bacteriological analysis..... 103
Winslow, C.-E. A., Chairman, Broadhurst, Jean, Buchanan, R. E., Krumwiede, Charles, Jr., Rogers, L. A., and Smith, G. H. The families and genera of the bacteria. Final report of the Committee of the Society of American Bacteriologists on Characterization and Classification of Bacterial Types..... 191
——, Rothberg, William, and Parsons, Elizabeth I. Notes on the classification of the white and orange staphylococci..... 145

Wyant, Zae Northrup. Bouillon cubes as a substitute for beef extract or meat in nutrient media..... 189
Wyant, Zae Northrup, and Normington, Ruth. The influence of various chemical and physical agencies upon *Bacillus botulinus* and its spores. I. Resistance to salt..... 553

Yeast agar medium, A note on the viability of meningococci on..... 431
Yeast, Extracts of pure dry, for culture media..... 89
